PISTOLET SQUELETTE

DESCRIPTION

PISTOLET SQUELETTE is a manual dispenser for the extrusion of one-component sealants and bonding products packed in cartridges.

AREAS OF APPLICATIONS

User-friendly and lightweight, PISTOLET SQUELETTE allows an easy dispensing of one-component adhesives and sealants ranging from low to medium viscosity. It is designed for use with aluminum or PE cartridges (from 280 to 310 ml).

TECHNICAL DATA

Nature of the materials	Body, trigger and rod in steel Aluminium handle
Dimensions	Inner diameter: 50 - 51 mm Maximum cartridge length: 218 mm
Thrust ratio	7 : 1
Thrust force	1 400 N
Weight	Approx. 420 g
Advantages	Easy handling Lightweight

INSTRUCTIONS FOR USE

Hold the trigger on the back of the dispenser to unlock the metal rod. Manually pull the rod back, check that it is not loose and still straight to avoid pushing crooked during use.

- Aluminum cartridges: pierce the seal of the aluminum cartridge and remove, if there is one, the "easy-opening" protection system.
- PE cartridges: cut the tip of PE cartridges with a suitable tool.

Introduce the cartridge equipped with a cannula into the dispenser (first introducing the cannula into the stopper) then press the handle to set in motion the metal rod which, by pushing on the piston, will put the cartridge into contact with the stopper and allow the extrusion of the product.

Push the trigger at the back of the dispenser to stop the flow of the product.

Do the reverse to remove the cartridge from the dispenser.

Make sure to keep the dispenser clean to give it a better lifespan.

1	Trigger
2	Body
3	Metal rod
4	Stopper
5	Handle

PACKAGING

Sold by 24 units.
