ACTIVATOR

DESCRIPTION

ACTIVATOR is an organic solvent-based solution specially developed to improve the adhesion of sealants on substrates used in the transportation market (cars, trains, buses, trucks, specialty vehicles and marine) and more specifically the glass bonding.

ADVICE

See also material safety data sheet

AREAS OF APPLICATIONS

ACTIVATOR is intended for professional use as an adhesion promoter of polyurethane sealants in glass bonding, either alone or in combination with the black primer PRIMER WS. ACTIVATOR can also be used on many non-porous substrates used in the transportation market, like aluminium, metals, painted surfaces, organic and mineral glass of automotive quality.

For applications other than glass bonding, it is recommended to do preliminary adhesion and compatibility tests - contact our technical service.
