

Product code : 7B002L

EMFIMASTIC + SILICONE VITRE

DESCRIPTION

EMFIMASTIC + SILICONE VITRE is a one-component acetoxy silicone sealant which cures under the effect of atmospheric moisture to form an extremely elastic joint. It shows a very good resistance against weathering, extreme temperatures and UV radiations and retains its elasticity and adhesion over time.

EMFIMASTIC + SILICONE VITRE benefits from the SNJF Label on anodized aluminium and on glass in class G 25E.

It has CE marking for following application: sealant for glazing usable in cold climate according to European Standard EN 15651-2 : G-CC.

ADVICE

See also material safety data sheet

AREAS OF APPLICATIONS

EMFIMASTIC + SILICONE VITRE is specially adapted for sealing applications in different domains like glass, shimmer, thermal and phonic insulation, curtain walls, pools, tanks and swimming pool, etc.

EMFIMASTIC + SILICONE VITRE is also suitable for waterproof sealing in many industrial applications (automotive, caravan, cold, ventilation, etc.) as well as bonding of materials subjected to vibrations.

EMFIMASTIC + SILICONE VITRE adheres without primer on most substrates commonly used in the building industry like glass, aluminium, concrete, brick, PVC, etc.

If applied on porous or sensitive substrates such as concrete, brick, marble, granite and other natural stones, the use of a primer is recommended to avoid exudation.

EMFIMASTIC + SILICONE VITRE is not suitable for façade joints or sanitary applications, the bonding or jointing of aquariums or in the food environment.

Do not use on bituminous substrates, based on natural rubber, chloroprene or EPDM or on substrates which might bleed oils, plasticizers, or solvents.

TECHNICAL DATA

INSTRUCTIONS FOR USE

Refer to product's technical data sheet.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product.

Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions.

The information detailed in the present technical data sheet is given by way of indication and is not exhaustive. The same applies to any information provided verbally by telephone to any prospective or existing customer.
