## EMFIMOUSSE TS

### DESCRIPTION

EMFIMOUSSE TS is a self-expanding one-component polyurethane foam that can be applied without a gun in all directions. Its use is facilitated because the product can be used in places that are difficult to access, where positioning the can upside down is impossible. It hardens due to atmospheric humidity and provides very good thermal and acoustic insulation.

EMFIMOUSSE TS adheres very well to most common building materials such as wood, concrete, brick, plaster, PVC, metals and polyurethane foam.

EMFIMOUSSE TS is not recommended on polyethylene, glass, silicone or PTFE.

### ADVICE

See also material safety data sheet

### AREAS OF APPLICATIONS

EMFIMOUSSE TS allows the rapid sealing of any cavity between insulation materials, the fixing and mounting of door and window frames (in wood, metal or PVC), the fixing of electrical installations, air conditioning systems, etc.

EMFIMOUSSE TS is used to thermally insulate plumbing and heating systems, to caulk automobile bodies, caravans, windsurfers, boat hulls, etc.

EMFIMOUSSE TS can also be used for bonding tiles and in particular roman tiles, in the same way as sealants.

It can be cut, sanded or painted after hardening.

### TECHNICAL DATA

### INSTRUCTIONS FOR USE

Refer to product's technical data sheet.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired.

Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product.

Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions.

The information detailed in the present technical data sheet is given by way of indication and is not exhaustive. The same applies to any information provided verbally by telephone to any prospective or existing customer.
